Parents/Carers... We need your views!

Green Schools Project are on a mission to educate and empower young people to take positive action on the climate crisis. We're excited they are supporting our school with the final stage of their award-winning Zero Carbon Schools programme, where pupils design and lead their own projects to reduce our school carbon footprint. We'd love to hear from you so that we can ensure the projects involve the wider community :)

Please take 3-4 minutes to shape future pupil-led climate action.
