GREEN SCHOOLS PROGRAMME - SUSTAINABLE SUPPLIERS AND PROJECT SUPPORT

Have a look through these organisations below. These could be helpful for the school business manager to make sustainable choices when choosing suppliers. They could also be useful to help make the pupil projects happen.

ENERGY

Solar For Schools work exclusively with schools to install solar panels at no up-front cost. Green Schools Project has an agreement in place so, if you use them, we receive a small referral fee to support our work. Please mention us in your enquiries.

enFrame is a community interest company that helps schools with green energy procurement to reduce carbon emissions and save money.

eo consulting work with mainly with large academy trusts, helping them to reduce energy costs and carbon emissions.

eEnergy enable schools to switch to LED lighting at no upfront cost. Green Schools Project has an agreement in place so if you use them, we receive a small percentage of the fee to support our work. Please use this link to register an interest, and mention us in your enquiries.

Energy Sparks is an online energy analysis tool and energy education programme. It helps pupils to monitor the school's energy usage, showing them the impact of their project. They also have many project ideas to help the school save energy and reduce bills.

Thermometer Superstore - Turning down thermostat settings can save thousands of pounds and lead to big carbon emissions reductions. These stick-on wall thermometers cost very little and can show when classrooms are over-heated.

Salix Finance provide Government funding to schools to improve energy efficiency, reduce carbon emissions and lower bills. Get in touch with them directly or contact Green Schools Project and we can connect you with someone who can help.

Direct Business Solutions offer energy procurement strategies from major gas and electricity suppliers, providing businesses and schools with a comprehensive utility management service. They support Green Schools Project's work through an acorn level (£500) business sponsorship.

TRAVEL

Sustrans is a national charity that helps young people to travel actively and safely to school or college. They organise events, support schools to reduce local congestion, and create safer routes to schools.

Modeshift Stars is a scheme which helps schools to develop effective travel plans and provides accreditation and recognition to schools that show excellence in supporting active and sustainable travel.

TFL Stars is the London equivalent to Modeshift Stars for schools committing to more active, safe, and sustainable travel.

Brightkidz is an organisation that supports schools to promote walking, cycling and road safety.

EV Charge and Drive supports organisations to install and maintain electric vehicle charging points. We have an agreement in place to receive a small referral fee to support our work so please mention us in your enquiries.

PURCHASING

Plastic Clever Schools is a programme run by Kids Against Plastic, set up by two teenagers, to help schools to reduce the amount of single use plastic that they use.

Office Odyssey is a social enterprise that provides printers and photocopiers to schools that save energy and resources. Green Schools Project has an agreement in place whereby a payment to support our work is provided when schools use their equipment. Please mention us in your enquiries.

RDUK supply renewed IT that saves money and has a lower carbon footprint. Green Schools Project has an agreement in place whereby a payment to support our work is provided when schools use their service. Please mention us in your enquiries.

Proactive AV provide audio visual solutions to education settings. They have a strong sustainability ethos and support Green Schools Project's work through an acorn level (£500) business sponsorship.

Anglian Water provide resources for schools to learn about water and activities to help look after this precious resource.

FOOD

ProVeg has a programme called School Plates which helps schools across the UK to improve the health of their pupils, save money, and help the planet. They provide advice and support on improving school menus to individual schools, academy trusts and local authorities.
